Washdown Printer / Applicator

Finding nickels & dimes in better yield design

Introducing a washdown compatible Printer/ Applicator. Simply close the doors to keep all components dry. Easy-to-use interface ensures personnel can start using it immediately.

Features and Benefits:

- NEMA-4X enclosure keeps printer components dry during washdown
- Simplified engineering improves reliability
- Operator-friendly controller
- Inexpensive parts replacement
- Printer is secured to the conveyor so no setup time is needed after washdown

A slide out tray allows full access to the printer for label change-out, maintenance and repairs.

Totes can be labeled via a side-apply labeler with an additional optional backup label applicator (shown).
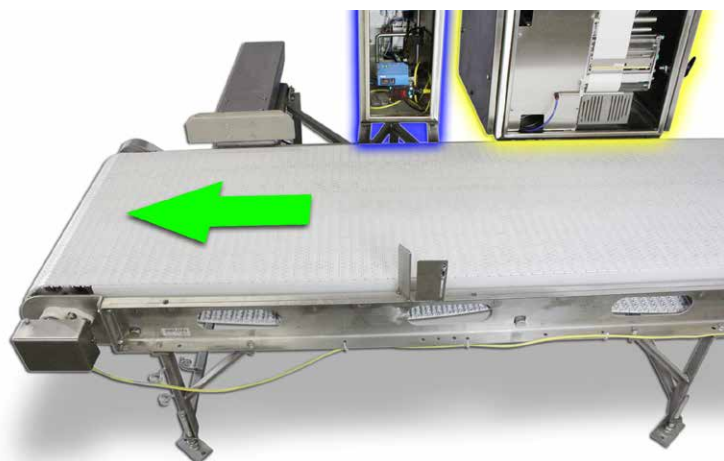

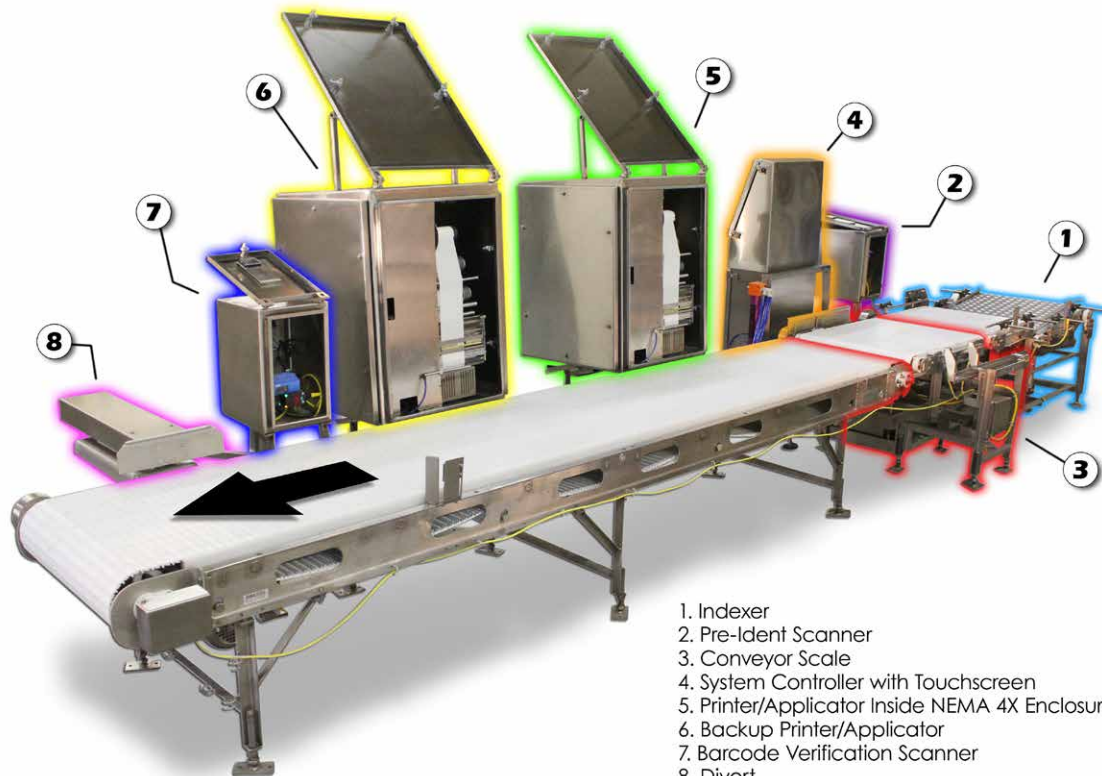

Specifications:

- Choose either direct thermal or thermal transfer
- 4.16-in maximum print width (6-in optional)
- 10-inch/sec print speed (application dependent)
- 203 dpi (8 dots/mm) resolution (ask for higher resolutions)
- Serial RS-232, Parallel Bi-Directional, Ethernet Wired LAN Communication

WASHDOWN RATED

DEPENDABLE PRODUCT OF USA

VANDE BERG SCALES
Division of VBS, Inc.

Washdown Automatic Tote/Case Labeler

1. Indexer
2. Pre-Ident Scanner
3. Conveyor Scale
4. System Controller with Touchscreen
5. Printer/Applicator Inside NEMA 4X Enclosure
6. Backup Printer/Applicator
7. Barcode Verification Scanner
8. Divert

A barcode scanner (blue) verifies readability to ensure proper label placement from applicator (yellow). A divert will remove the package if the label cannot be read.
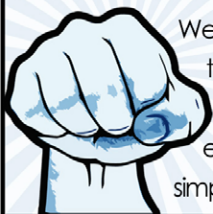

Additional Features and Benefits

- Ethernet TCP/IP Communication
- CAN Open Controller
- Fool-proof hand crank for adjusting the height
- Sealed motors and bearings
- Fully backup all setting/info on a USB stick

Dual printer/applicator is ideal for high capacity lines since label changeover can occur without stopping the labeling process or two different labels can be printed consecutively.

Maintenance Friendly: Uses industry standard parts so personnel have familiarity with the components, which reduces down-time.
