

Rotary Accumulation Turntables

Finding nickels & dimes in better yield design

Our stainless steel rotary accumulation tables ensure you have large platforms for efficiently staging product. These tables are built for food processing plants that require harsh washdown for cleaning.

Features & Benefits:

- 1/4 Horsepower variable speed industrial AC drive motor (reversible)
- 5-15 RPM possible with industrial epoxy-painted gearbox
- Stainless steel three-point frame and supports eliminate rocking
- Open frame design to allow easy cleaning
- 1-inch lip standard
- Adjustable height range from 30-48 inches (custom heights)
- Optional stainless steel lockable castors permit mobility

Heavy-duty construction can handle hundreds of pounds. 3-leg design allows stability and reduces costs vs. a 4-leg design.

Stainless Steel Rotary Accumulation Tables - hold product so personnel can catch-up. Rotation is clockwise or counter-clockwise.

Variable speed dial to control turntable speed, providing 5-15 revolutions per minute.

Underside view shows rigid structure for supporting table top.
